

Deltadiatonics Index

"Therefore, whenever I theorize, it is less important whether these theories be right than whether they be useful comparisons to clarify the object and to give the study perspective." Schoenberg, Theory of Harmony, pg.19

I Intervals

1. Classification of Intervals
2. Intervals-Equal Temperament-Chromatic-I
3. Intervals-Equal Temperament Chromatic-II
4. Intervals-Major-Modal Scale

III Tetrads

1. Chords of the Seventh with Fifth Analysis
2. Tetradic Analysis in Thirds
3. Tetradic Inversions
4. Tetradic-Compound Equivalents
5. Diatonic Tetrad Comparison
6. Comparative Structure of Tetrads using Polymodal and Fifth Analysis

V Secondary Dominants

1. Secondary Dominant Resolution
2. Secondary Dominant Harmony -Major
3. Secondary Dominant Harmony - Minor
4. Secondary Dominant Harmony-Major & Minor
5. Secondary Dominant Harmony-Quasi-Bach
6. Secondary Dominant Harmony-Quasi-Chopin
7. Secondary Dominant Harmony -Quasi-Bill Evans

VII Inspirations from Schoenberg

1. Harmonic Series Analysis
2. FCG Principle
3. FCG Paradox
4. FCG Principle Triadic & Septadic
5. Schoenberg Regions
6. Realization of Schoenberg Regions
7. Deltadiatonic Interval Classification with Schoenberg Regions
8. Augmentation-Six
9. Pentacyclic Neapolitan
10. Apollonian Evaluation of a Dionysian Epoch
11. Schoenberg, The Chart or Regions
12. Deltadaitonic Philosophy

IX The Twenty-One Modes

1. The Seven Modes of the Major Scale
2. The Seven modes of the Melodic Minor Scale
3. The Seven modes of the Harmonic Minor Scale
4. Major Modes Application-Jazz
5. Major Modes Application -Classical
6. Melodic Minor Modes Application
7. Harmonic Minor Modes Application

XI The Synthesis of Classical & Jazz

1. The Art of Jazz
2. The Art of Jazz- Analysis
3. The Art of Jazz-Application
4. Le Fils Des Etoiles-Satie
5. Satie in the Stars- Satie & Di Salvio

II Triads

1. Triadic Analysis- The Four Foundational Triads of Diatonics
2. Triadic Inversions
3. Classification of Dyad Intervals and Triads
4. Classification of Quartal Triads

IV Tonicization

1. Tonicization of the Major Scale
2. Tonicization of the Chromatic Scale -I
3. Tonicization of the Chromatic Scale -II
4. Tonicization of the Whole-Tone Scale -I
5. Tonicization of the Whole-Tone Scale -II
6. Tonicization of the Diminished Scale

VI Iolydian #5 Scale

1. Evolution of the Iolydian #5 Scale
2. Triads of the Iolydian #5 Scale
3. Harmonization of the Iolydian #5 Scale
4. Sequential Chain of Tetrads-Iolydian-Diatonic
5. Sequential Chain of Tetrads- Inversions
6. Transformations
7. Iolydian #5 Scale, Chords, Arpeggios -Exercise-Analysis
8. Alleluiah, A Chorale Prelude-Application of the Iolydian #5 Scal

VIII Papers

1. The Limit of Diatonics
2. Tonic, Parallel & Relative Key Relationships
3. Scales in Semi-& Whole-Tones
4. Derivation of the II-V-I Cadence
5. Polymodal Diatonics
6. Derivation of the Augmented Sixth Chord
7. Derivation of the Neapolitan Sixth Chord
8. Theory-Elementary
9. Theory Basics
10. Two Handed Scales for Non-Pianists
11. The Tritone, Leading Tone and Dominant

X Circle of Fifths & Upper Structures

1. Interchangeability of Major and Minor-Bach
2. Interlacing -Bach & Bill Evans
3. Upper Structures
4. Integer Notation of Circle of Fifths
5. Symmetry
6. Diminished as a Rootless V7(b9)

6. Quartal Triads-Jazz Application
7. Quartal Triads -Classical Application
8. Bill Evans-Very Early -Analysis
9. Bill Evans-Very Early II- Analysis with Schoenberg Regions
